

Makeup Application Guide

Basic Character Face

Students apply their own makeup

REMEMBER TO WEAR YOUR COVER UP!

1. **BASE (foundation)** Sponge over entire face. Blend into your neck, make sure you do not leave a line of demarcation.

2. **ULTRALIGHT (highlighter)** Use on eyelids up to brows and on the bridge of the nose.

3. **CHARACTER SHADOW** Use in crease of the eye, along sides of the nose,

4. **BLUSH (rouge)** Apply on apple of the cheek from midpoint of eye toward middle of the ear.

5. **POWDER** Use puff or fluffy powder brush to apply over entire face and jaw line. Dust off excess. Reapply powder throughout the show as needed.

6. **EYELINER** Apply from outside corner of eye, on top and bottom, 1/2 to 3/4 of the way in.

7. **MASCARA** All actors (male and female) must use this. Brush out any clumps.

8. **BROW PENCIL** Kits often use the eyeliner for this. Use feathery strokes, not harsh lines, to fill in the natural brow area.

9. **LIP COLOR** Stay within natural lip line.

Please clean off your brushes, replace all lids and put away your supplies. Wipe down your dressing table area so makeup won't get on costume pieces. You will receive one warning to clean your area.
